Ignacio Marzotta

Computer and Information Systems Engineer

Contact

Location: Santiago, Chile (Willing to relocate)
Phone: (+56) 9 7540 7567
Email: ignaciomarzotta@gmail.com

Education

Computer Engineering and Informatics
Andrés Bello University
Graduated with Magna Cum Laude distinction (2020 - 2025)

Experience

Focused on Thesis Project development
Apr 2025 – Jul 2025

Developed final engineering thesis project as part of degree completion requirements, graduating with Magna Cum Laude distinction in July 2025.

Forcast. — Junior Full-Stack Software Engineer
Nov 2024 – Apr 2025

Stack: Node.js, Angular, PostgreSQL, Web3, Smart Contracts, CI/CD

Contributed to the development and maintenance of a Web3 fintech platform within an agile team, resolving Jira tickets and shipping changes through pull requests reviewed by senior engineers. Worked across the stack on feature implementation, bug fixes, and UI improvements, including a multi-login system supporting both Web2 and Web3 accounts, a server-side pagination system, and a USD-to-token conversion API integrated with CoinGecko. Also supported production deployments and contributed to internal technical documentation.

Reference: Rubén Román Vilasau | Software Engineer and Direct Supervisor | rubenromanvilasau@outlook.com

Focused on completing engineering degree
Apr 2022 - Nov 2024

Cuatro Coigües — Full-Stack Web Developer
Sep 2019 – Apr 2022

Stack: Ruby on Rails, Puma, AWS, PostgreSQL, jQuery, Webpacker, Bootstrap

Built and deployed a full-stack e-commerce MVP for an agro-food business, covering the full development lifecycle. Integrated Flow (payments), Mailchimp, and FedEx, with deployment on AWS Elastic Beanstalk and Route 53.

Reference: Martín Donetch | Sales Manager and Project Supervisor | martin.donetch@cuatrocoigues.cl +56 9 8819 6596

Professional profile

Full-Stack Engineer who has shipped real features in production environments beyond academic projects. My background spans E-commerce platforms built end-to-end in Rails and Web3 fintech applications in Node.js and Angular. I work well in cross-functional teams, communicate fluently in English, and take ownership of problems from requirements to deployment.

Skills

- **Languages:** JavaScript, Ruby, TypeScript, Python, HTML, CSS.
- **Frameworks / Libraries:** Rails, Node.js, Angular, Bootstrap.
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Tools / DevOps:** Git/GitHub, AWS, CI/CD, Docker.
- **Testing:** Karma, Jasmine, Jest, Supertest, RSpec, Postman.

Diplomas and Certifications (selection)

Full-Stack Web Development (Ruby on Rails)

IBM: Data Science Practitioner, Cybersecurity Analyst, Cloud Computing & Big Data Fundamentals, and more.

Portfolio

Languages

- Spanish (Native)
- English (C2 / Bilingual)
- Mandarin Chinese (Basic)
